Product Factsheet

Williams W12fg

Wall Mount Dries 12 Pair of high-top boots.

• Safe and Efficient Drying

Direct Drying focuses a stream of air to the most difficult area of the boot to dry. The warmed air is delivered at a safe temperature to save sensitive fabrics and prolong equipment life. Boots/Gloves are stored upside down to protect against debris from above.

• Proven Health Benefits

Williams Direct Drying has been proven under laboratory conditions to help efficiently eliminate harmful pathogens in personal protective equipment.*

• Hygienic Focused Design

All Surfaces are sloped for enhanced water shedding characteristics. Dryer mounting eliminates contact with the floor.

• Built-in Energy Management

Depending on your drying requirements, air is either delivered at 10-15°F (6-8°C) above room temperature or at room temperature for more economical operation.

Williams Boot & Glove
Dryers Inc. dba
Williams Direct Dryers
17665 - 66A Ave # 206
